Main Activities of the vice president Giuseppe De Salvo

2014-2017

2014

Opened a channel with UNHCR for Middle East to know the situation of the Syrian ostomy refugees in M.E. and, eventually, to see together how to support them. The channel was closed for decision of the EC of EOA.

2015-2016

Given support to Mrs. Maria Okonje for the soundation of the Nigerian Ostomy Association. Further developments to promote and to assist the opening of stoma clinics in regions of Nigeria were refused for decision of the EC of EOA.

Kept opened channels with Greece were a site in Face Book for ostomates was opened; in Spain where there is now a very good relationships with the Madrid's Association and all the other towns' associations received an invitation to establish the Spanish Ostomy Association. Only the Andalusian responded; in Portugal was opened again a relationship after years of silence; correspondence with Turkey and Saudi Arabia, but without great results.

2017

Opened channel with an European Europarliamentary to aid the opening of a stoma clinic in Montenegro and to work because the stoma rehabilitation falls into the social inclusion, matter of EU, and not into the medicine, matter of the national states.

Opening of a direct channel with the president of the Alsatian Ostomy Association, thanks to the indication of the EOA secretary Mrs. Maria Hass, to promote the birth of the new French Ostomy Association.

In trust
